Subject: RE: Hayling infrastructure Review - A3023 Capacity

Hi Linda

Could you please forward Cllr Perry a copy of the initial email request that went to HCC Local Highway Authority and an update on the status of discussions with HCC.

Thanks

David

Subject: Hayling infrastructure Review - A3023 Capacity

David

Could you please let me know what the information request was that you sent to Hampshire Highways regarding assessing the capacity of the A3023 in its current form and with changes.

Capacity of the A3023 has always been challenged and I am particularly interested in what the official capacity numbers are and the definitions used to determine capacity limits.

Maybe you could send me a copy of your email request?

Kind regards

John Perry
